Subject index

Key: c = correspondence; e = editorial; r = review article; S* = Supplement 3; S+ = Supplement 4

A
Acute respiratory distress syndrome (ARDS)
  after pneumonectomy 675
  associated with right ventricular dysfunction or failure ? 195e
  CO_2 removal ($ECCO_2R$) 594
  complicating antepartum pyelonephritis 462c
  fluid restriction and dehydration therapy 101e
  intravascular oxygenator (IVOX) in 11
  neutrophil-mediated tissue injury and its modulation 277
  nitric oxide (NO) 864c
  nitric oxide (NO) and right ventricular function 197
Airways
  increase of airway resistance after topical airway anaesthesia 920
  laryngeal mask in critical care medicine 361r
  minitracheostomy and CPAP in primary laryngospasm (Parkinson's disease) 863c
  minitracheostomy and pressure control ventilation for flail chest 1054
  outcome of percutaneous dilatational tracheostomy 475
  tracheotomy in neutropenic patients 687
Amniotic fluid embolism
  non-cardiogenic pulmonary edema 698c
Anticoagulation
  during extracorporeal circulation 84r
  for ischemic stroke 856r
Ascites
  recirculation in ovarian hyperstimulation syndrome 590
Asthma
  high-dose magnesium sulfate 94c
  importance of the inhaler mouthpiece 698c
  nebulized salbutamol and adrenaline in 18

Autonomic nervous system
compensating mechanisms in septic shock 112

B
Barotrauma
intrinsic PEEP 522r
risk reduced by pressure-controlled inverse ratio ventilation 310
Benzodiazepines
withdrawal syndrome following midazolam infusion 190c
Book reviews 194, 622
Brain death
apnea testing in suspected brain dead children 247
plasma ionized calcium 832
reliability in diagnosis 657
significance of electrical brain activity 76
Bronchoalveolar lavage (BAL)
posttraumatic fat embolism 973

C
Calcium
correction of hypocalcaemia 838
plasma ionized calcium in brain-dead patients 832
Cardiac arrest
elastase inhibitor 636
jugular bulb oxygenation 71,567
outcome prediction 71
reperfusion of the brain 132
Cardiac function
correction of hypocalcaemia 838
left ventricular function in scorpion envenomation 629
phosphorus therapy in hypophosphatemia 826
plasma ionized calcium in brain dead patients 832
Cardiac index (CI) / output (CO)
decrease of CI during treatment with intravascular oxygenator (IVOX) 11
during alternating and simultaneous ventilation 1009
during continuous negative external pressure (CNEP) and positive end-expiratory pressure (PEEP) 67
during treatment with intravascular oxygenator (IVOX) 14
humorally caused depression with PEEP ? 466
thermodilution method 691r
Catecholamines
corticosteroid effect on early beta-adrenergic down-regulation 204
effects of noradrenaline, adrenaline and dopamine on V02 and metabolism 50
nebulized adrenaline and salbutamol in acute asthma 18
Catherization
arteriovenous fistulae – endovascular treatment 1043
central venous catheter infections 177r
evaluation of percutaneous central venous catheters in pediatric patients 759
false aneurysm of the brachial artery after axillary venous access 97 c
left subclavian artery to jugular venous arch fistula 386c
Chronic Obstructive Pulmonary Disease (COPD)
different breathing patterns 880
effect of low-level PEEP on inspiratory work 887
flow-triggering versus pressure triggering 896
intrinsic PEEP and inspiratory effort 896
pressure support ventilation 871
static compliance as predictor for weaning success 399
tracheal gas insufflation 904
Cholecystitis
morphine cholescintigraphy in the diagnosis of 120
Coagulation
retrieved blood after arthroplasty 989
thrombomodulin in intensive care patients 645
Critical care medicine
clinical investigation in 3e
economics and cost-efeectiveness 952
European publications 7
information systems 701e
management of bereavement 429
outcome prediction 770r
patient data management systems in Europe 703
quality of life after intensive care 422
Critical illness polyneuropathy
involvement of autoimmune mechanisms 96c
Cyclooxygenase
inhibition to prevent pulmonary reperfusion injury 817
Cytokines
concentrations in retrieved blood and systemic circulation 989
neutrophil-mediated tissue injury 277r
removal with renal replacement therapy 169r

D
Data handling
information systems in intensive care 701e
patient data management systems in Europe 703
Diabetes insipidus
and decompensated diabetes mellitus 515
induced by dexamethasone 238

E
Endocrine system
adrenocortical function in sepsis 57
coma secondary to anterior hypophysitis 847
thyroid and thymic function in severe trauma 334
Epidemiology
of severe comunity-acquired pneumonia 24
pulsed-field gel electrophoresis and *Pseudomonas aeruginosa* lung infections 996
Expert Panel
Clinical trials for the treatment of sepsis 184
Extracorporeal circulation
CO_2 removal 594
haemostasis and anticoagulation 84r
its effect on cerebral blood flow and metabolism 38

F
Flow-triggering
during weaning 682
pressure- and flow-trigger variables 159r
versus pressure triggering in COPD patients 896

G
Gas exchange
effects of methylene blue in septic shock 1027
improvement with partial liquid ventilation 966
in emergency and elective abdominal surgery patients 319
Gastric motility
effects of intracranial pressure and sedation after brain injury 573
effects of intravenous ketamine 584

H
Head injury
abbreviated injury scale – predictor of outcome 606
comparison of extradural and intraparenchymatous intracranial pressures 850
gastric emptying 573
hypo- and hyperkalemia 235
new therapeutic strategies 464c, 465c
thyroid and thymic function 334
Heatstroke
a new look at an ancient disease 623e
Hemofiltration
acute renal failure in infancy 490
glucose dynamics during 1016
in children with severe sepsis 500
in surgical and non-surgical septic multiorgan failure 104
pharmacokinetics during continuous renal replacement therapy 612r
propofol for sedation during 342
removal of pro-inflammatory cytokines 169r
Hemodialysis
amikacin pharmakokinetics during 348
bicarbonate hemodialysis in multiorgan failure 104
eliminiation of liposomal amphotericin 699c
Heparin
during extracorporeal circulation 84r
thrombocytopenia induced by 542c
Hydration status
tetrapolar body impedance measurements in critically ill patients 125
Hypertension
ACE inhibitor after neurosurgery 651
antihypertensive treatment in acute ischemic stroke 856r
Hypophysitis
coma and hypotension 847

I
Immune globulines
intravenous IgG and renal failure 289c
Infection
central venous catheters 177r
clostridium septicum primary myonecrosis
enterococcus faecalis colonisation and endocarditis 231
meningococcal septicemia and severe infectious purpura 264
pneumocystis carinii pneumonitis in children 261
pseudomonas aeruginosa – pulsed-field gel electrophoresis 996
sepsis, SIRS 299e
toxoplasma pericarditis in AIDS 229
ventilator-associated pneumonia I 365r
ventilator-associated pneumonia II 452r
Inhalation trauma
increase in airway blood flow 326
Intoxication
buflomedil 463c
isoniazid 641
left ventricular function in scorpion envenomation 629

mercury oxycyanide and mercury cyanide 1051
paraquat poisoning and respiratory failure 778c
scorpion envenomation 626 e
secondary exposure of medical staff to sarin vapor 1032
tricyclic psychotropic drugs 598
Intracranial pressure (ICP)
comparison of extradural and intraparenchymatous ICP monitoring 850
treatment of increased ICP secondary to ischemic stroke 856r
urapidil 853
Inverse ratio ventilation
to keep the lung open 310

J
Jugular bulb oxymetry
for outcome prediction after cardiac arrest 71
head injury 464c, 465c
in comatose patients after cardiac arrest 572

L
Lactic acidosis
interference of β-adrenergic agents and ethanol ? 1039
Liver failure
flumenazil in the treatment of hepatic encephalopathy in children 253
Liver transplantation
early metabolic treatment 802
predictive value of four scoring systems 32
sigmoid intramucosal pH 289c
Lung function
testing in children 744

M
Mask physiotherapy
after heart surgery 469
Mechanical ventilation
alternating versus simultaneous ventilation 1009
continuous negative pressure ventilation in a child 766
external high frequency ventilation 191c
deterioration of respiratory function after intra-hospital transport 784
different ventilatory approaches to keep the lung open 310
flow-triggering during weaning 682
gastrointestinal bleeding 543c
high frequency oscillatory ventilation in pediatric respiratory failure 505
intrinsic PEEP 522r
P0.1 – level of pressure support 547
P01.1 – new method for measurement 554
P0.1 – the relevance of 100 milliseconds 545e
paralysis and chest wall mechanics 808
patient-ventilator battle 867e
performance of neonatal ventilators 753
predicting weaning success in COPD patients 399
pressure- and flow-trigger variables 159r
respiratory mechanics during paralysis and PSV 406
test of heat-moisture exchangers 142
ultrastructure and mucociliary transport of bronchial respiratory epithelium 482
ventilator-associated pneumonia I 365r
ventilator-associated pneumonia II 452r
vital capacity in mysthenia gravis as predictor 663
Monitoring
comparison of extradural and intraparenchymatous intracranial pressures 850
continous blood gas monitoring – usefulness 437
Deltatrac 149
jugular bulb oxymetry after cardiac arrest 567
of nitric oxide and nitrogen concentrations 537
pulse oximetry-misleading informations from 437
Multiple organ dysfunction syndrome (MODS)/ Multiorgan Failure (MOF)
following severe trauma 813
treatment with bicarbonate hemodialysis and hemofiltration 104
Myocardial infarction
carbon monoxide 716

N
Neuromuscular diesease
weaning from mechanical ventilation 737
Neutrophils
neutrophil mediated tissue injury and its modulation 277
inhibition of elastase after cardiac arrest 636
Nitric oxide (NO)
after postpneumonectomy ARDS 675
in severe ARDS 864c
its effects on right ventricular function in severe ARDS 197
monitoring of NO and nitrogen concentrations 537
paraquat poisoning 778c
Nutrition
artificial nutrition in Spanish intensive care units 842
early metabolic treatment after liver transplant 802
glucose dynamics during hemodialfiltration 1016
metabolic effects of different parenteral nutritional regimens 561

O
Oxygen consumption
clinical validation of the Deltatrac monitoring system 149
disparity between whole body and liver in metastatic liver disease 352
during three assisted spontaneous breathing modes 211
influence of noradrenaline, adrenaline, and dopamine 50
Oxygen content
for outcome prediction after cardiac arrest 67
Oxygen transport
limitations of oxygen transport to the cell 391

P
P0.1
level of pressure support 547
new method for measurement 554
the relevance of 100 milliseconds 545e
Partial liquid ventilation
editorial 963e
with perfluorocarbon – hemodynamic effects 966
Pediatric Intensive Care
Brain death
apnea testing in suspected brain dead children 247
Catheterisation
evaluation of percutaneous central venous catheters 759
Hemofiltration
acute renal failure in infancy 490
in children with severe sepsis 500
Liver failure
flumenazil in treatment of hepatic encephalopathy in children 253
Lung function
testing in children 744
Mechanical ventilation
continuous negative pressure ventilation after Glenn shunt 766
high frequency oscillatory ventilation in pediatric respiratory failure 505
performance of neonatal ventilators 753
Renal failure
effects of theophylline in neonates with respiratory distress syndrome 511
renal replacement therapy in infancy 490
Retinopathy of prematuritiy 241
Reye's Syndrome
proton magnetic spectroscopy 266
Scoring systems
in meningococcal septicemia and severe infectious purpura 264
Surfactant
for *pneumocystis carinii* pneumonitis 261
Pericarditis
toxoplasma pericarditis in AIDS 229
Perfluorocarbon
partial liquid ventilation 963e
hemodynamic effects of partial liquid ventilation 966
Pharmacokinetics
amikacin during haemodialysis 348
continuous renal replacement therapy 612r
elimination of liposomal amphotericin by hemodiafiltration 699c
imipenem/cilastin dosage during renal failure and hemofiltration 863c
propofol/alfentanil 981
propofol for sedation during hemodiafiltration 342
Phosphate
phosphorus therapy for hypophosphatemia and myocardial function 826
Pneumonia
pneumocystis carinii and mechanical ventilation 777c, 778c
prognostic factors in community-acquired 14
ventilator-associated I 365r
ventilator-associated II 452r
Polyuria
decompensated diabetes mellitus or diabetes insipidus ? 515
induced by dexamethasone 238
Positive end-expiratory pressure (PEEP)
effect of low-level PEEP on inspiratory work 887
hemodynamic effects 67
humorally mediated cardiac output depression ? 466c
intrinsic PEEP 522r
intrinsic PEEP in COPD 871,896
Postoperative care
prophylactic bronchial hygiene following cardiac surgery 467e
mask physiotherapy after heart surgery 469
Pressure controlled ventilation
to keep the lung open 310
via minitracheostomy fro flail chest 1054

Pressure support ventilation (PSV)
comparison of three different ventilators 913
P0.1 to set the appropriate level for PSV 547
patient-ventilator dyssynchrony 867e
respiratory mechanics 406
respiratory response and inspiratory effort in COPD 871
Pulmonary artery catheter
catheter breaking and embolization 192c
critical view 291
note of cautious optimism 296
rupture of pulmonary artery during baloon occlusion pulmonary angiography (BOPA) 79
thermodilution method 691r
Pulmonary edema
after hydrogen peroxide irrigation 287c
associated with transfusion of packed red cells 443
postobstructive – induced by endotracheal tube occlusion 1048
secondary to amniotic fluid embolism 698c
Pulmonary embolism
amniotic fluid embolism 698c
bedside scintigraphy 723
diagnosis of posttraumatic fat embolism 973
secondary to a testicular choriocarcinoma 1036
venous air embolism following pneumomediastinum 790

R

Renal failure
after high-dose IgG 288c
effects of theophylline in neonates with respiratory distress syndrome 511
in infancy: continuous renal replacement therapy 490
organ function variables do not predict survival 797
post-renal obstruction 610

S

Scoring systems
abbreviated injury scale in head injury 606
in liver transplant recipients 33
in meningococcal septicemia and severe infectious purpura 264
translation, conversion and definition ambiguities 356
TRISS 729
Sedation
effects on gastric emptying after head injury 573
propofol/alfentanil – pharmacokinetics and pharmakodynamics 981
propofol during hemodiafiltration 342
withdrawal syndrome following midazolam infusion 190c
Selective Decontamination of the Digestive Tract (SDD)
enterococcus faecalis colonisation and endocarditis 231
Severity of illness
elevation in circulating calcitonin is related to 63
Sepsis
clinical trials for the treatment of 184
C-reactive protein as prognostic indicator 602
hemofiltration in septic children 500
incidence, morbidities and outcome in surgical ICU patients 302
SIRS, infection 299e
skin blood flow 669
trials – plea for caution 389e
Septic shock
adrenocortical function in 57
and autonomic control of the heart and peripheral vessels 112
due to *pseudomonas aeruginosa* in a previously healthy woman 226
effects of methylene blue on hemodynamics in 1027
effects of prostacyclin on gastric intramucosal pH 414
incidence, morbidities and outcome in surgical ICU patients 302
Splanchnic perfusion
effects of prostacyclin in septic shock 414
sigmoid intramucosal pH during liver transplantation 289c
prophylaxis with sucralfate versus ranitidine 287c
reliability of tonometric pCO_2 measurement 387c
tonometry versus base deficit 777c
Stroke
critical care of acute cerebral ischemia 856r
cerebellar infarction after sumatriptan 82
Sudden cardiac death
circadian variation 45
Surfactant
for *pneumocystis carinii* pneumonitis 261
Systemic inflammatory response syndrome (SIRS)
incidence, morbidities and outcome in surgical ICU patients 302
neutrophil-mediated tissue injury and its modulation 277
sepsis and infection 299e
trauma 813

T

Thermodilution
clinical assessment of cardiac output 691r
in vitro test of three commercially available cardiac output computers 154
Thrombolysis
ischemic stroke 856r
mechanically of ilioccaval thrombosis 440
Tranexamic acid
attenuation of oleic acid induced lung injury 1003
Transfusion
pulmonary edema after packed red blood cells 443
Transportation
of critically ill patients 781e
deterioration of respiratory function 784
Trauma
bronchoalveolar lavage for the diagnosis of fat embolism 973
SIRS and MODS 813
thyroid and thymic endocrine function 334
TRISS and qualitiy of care 729

U

Urapidil
influence on cerebrospinal fluid pressure 853
Urinary tract infection
predicting infection: uefulness of bacteruria 621c

V

Vasoactive substances
alterations in the critically ill: survivors versus non-survivors 218
Volume expansion
postoperative HES 577

W

Weaning
flow-triggering 682
low-level PEEP 887
neuromuscular disorders 737
pedicting weaning success in COPD patients 399
tracheal gas insufflation in COPD patients 904
Work of breathing
and P0.1 547
during PSV delivered by three different ventilators 913
during PSV in COPD patients 871
effects of ventilator triggering systems in COPD 896
low-level PEEP 887
reduction by flow-triggering 682
Servo 300 versus Servo 900C during CPAP 1023
